

Harness the Power of Your BRIX Data

informXL's real-time Microsoft® Excel-based business intelligence platform is now available for Hyphen's BRIX. Designed specifically for home builders, informXL Analyzers connect your cloud-based BRIX data directly to Excel, delivering true self-service reporting to your entire organization. Be more informed and make better business decisions with informXL for BRIX.

BRIX real-time data warehouse hosted in a secure Microsoft Azure SQL cloud.

Users access informXL Analyzers through PCs on the company network to organize data for increased efficiency and better insights.

Key Benefits of informXL's Analyzer Reports

Dynamic Reporting for Everyone

Pre-built Excel report templates for every department enable employees to easily access information and create essential, reusable reports that can be updated in real-time at the touch of a button.

The Power and Simplicity of Microsoft® Excel

Excel-based reports have a familiar interface, are easy to use and require minimal training - bringing data visibility to your whole organization.

Detailed and Personalized Reports

Templates can be used out-of-the-box or tailored to create customized reports, charts, graphs or pivot tables.

Hybrid-Cloud Security

informXL for BRIX delivers the industry's first hybrid-cloud data intelligence suite by connecting Excel on your local PC to our secure BRIX Microsoft® Azure data warehouse. It's your data in the cloud, at your fingertips in Excel.

Exceptional Customer Service

informXL is committed to helping builders get the most out of their data. Through direct support, video tutorials and virtual trainings, the informXL team helps your data become a powerful decision-shaping asset.

Analyzer Report Types:

Job Cost – Detailed breakdown of job costs and transactions by division, region, project, job, cost code and vendor. Designed for Purchasing and Construction personnel.

Purchase Orders – Detailed view of PO Line items for each project, job and vendor. Includes all PO details to the payment level. Designed for Purchasing and Construction personnel.

Sales Summary – Sales and backlog report by division, region, project and job. Includes job-level sales details with buyers, sales amounts, contingencies, closing projections and more. Designed for Sales, Marketing, Purchasing, Accounting and Finance personnel.

Job Details – Detailed breakdown of all jobs and status by division, region and project. Designed for Accountants, Purchasing, Controllers and Finance personnel.

Accounts Payable – AP transaction details by division, region, project, job, invoice and vendor. Designed for Accountants, Controllers and Finance personnel.

General Ledger – Transaction or summary level ledger information at the company, account, region, division and job levels. Designed for Accounting and Finance personnel.

Takeoff Compare – Summary and detailed analysis of base house and option takeoff data to show purchasing cost changes over time. Includes selling price, square footage and costs by project, plan, elevation, and swing. Designed for Controllers, Purchasing and Finance personnel.
